## SUMMARY

2022 online student of full stack web development. Current pharmacy technician in the Royal Adelaide Hospital production unit. Motivated to produce positive outcomes by working both autonomously and in team environments. A confident, quick learner with an approachable and driven attitude.

## TECHNICAL SKILLS

- HTML
- CSS/Bootstrap
- JavaScript
- MySQL
- Node.js
- Express.js
- React
- PWA
- MongoDB/Mongoose
- Handlebars
- jQuery
- Insomnia

## EXPERIENCE

Please see three of my best pieces of work throughout the course below

### **EASY DATE**, PROJECT ONE

- Using a simple quiz to help the user decide where to buy dinner from and what movie to watch
- Technology used: JavaScript, Tailwind CSS, MovieDb API and Google Maps API

<https://mattdryan.github.io/Easy-Date/>

### **PASSWORD GENERATOR**, HOMEWORK ASSIGNMENT

- JavaScript logic to generate a password that is of a given length and using specified characters
- Technology used: JavaScript and HTML

<https://abelperio.github.io/password-generator/>

### **CODE REFACTOR**, HOMEWORK ASSIGNMENT

- Bringing a page in line with HTML and CSS best practices
- Technology used: HTML and CSS
